

7.0 COMMUNICATION

So that the greenhouse staff can best address users' needs, please promptly inform the greenhouse staff and/ or manager of:

- Alarms
- Pests on plants
- Malfunctioning equipment
- Any situation that you think may require attention
- Users should respond without delay to queries or requests from greenhouse staff.
- Notify the greenhouse manager promptly of changes in project requirements.
- If requested, the greenhouse staff will give users advance notice of pesticide applications or other greenhouse closures by email.
